CALEX® Cap
Fecal Extraction Device

- Redesigned for total laboratory automation (TLA) systems
- Improved ergonomometry for manual handling
- Fast and easy stool extraction
- High correlation to gold standard manual extraction
- Optimal dilution offers excellent efficiency in extraction

Easy to use Calprotectin Extraction

Health Canada Licence: 98839

BÜHLMANN
CALEX® Cap Unique Features

New Design

Improved cap ergonomics to facilitate automated and manual decapping

Redesigned sampling pinhead enables total laboratory automation and smooth rack filling

Comparison between the redesigned CALEX® Cap and the previous version. $r^2 = 0.96$

Comparison of CALEX® Cap and the gold standard manual extraction. $r^2 = 0.9$

**Simplicity**  
Improved ergonomics further supports the simple and safe use of CALEX® Cap, significantly reducing hands-on time

**Automation**  
CALEX® Cap is redesigned for the use on total laboratory automation (TLA) solutions with full compatibility for the BÜHLMANN fCAL® turbo assay

**Reliability**  
Excellent precision in stool sampling and high correlation to the gold standard manual stool extraction procedure

**Stability**  
Extensive validation proves stability at RT for 3 days. The CALEX® Cap is suitable for air transportation according to IATA 650 (UN3373)

**Efficiency**  
Optimal extract dilution of 1:500

**Exclusivity**  
CALEX® Cap is designed for all BÜHLMANN calprotectin assays
